The best thing about our service is it is completely free to you. You may be moving from a state that has "fee-brokers". Fortunately, Texas is not one of these states. Our services are paid for by the apartment communities we work with.

99% of our clients tour apartments on their own, following an itinerary or schedule that we've setup for them in advance. This eliminates the inefficiency of us spending time outside of the office with clientele while still providing a high level of customer service.

We are always improving upon our process for presenting listings to clients and in the last year alone we've been able to reduce the overall time it takes to prepare a list of properties for our clients from an hour to right around 30 mins. This is something we want to continue to improve upon.

What Our Clients Say

Molly was extremely helpful and clear every step of the way. She kept her communication at an appropriate level and it is very clear that the agents who are associated with this company are trained extremely well. Molly is an exemplary example of this and I would highly suggest using this company and specifically her.

If you are looking for an apartment, even if you know the area, I highly suggest this source. It is hard to believe it is free! They treat you as if you are a VIP!
